Introduction

In this fun countries and nationalities game, students play bingo by listening to nationalities and matching them to countries.

Procedure

Give each student a bingo card.

If there are more than 16 students, you can give two students the same card or have students share a card.

Explain that you are going to call out nationalities and that if the students have the corresponding country on their bingo card, they cross it out. When a student has crossed out all nine countries, they shout 'Bingo'.

Call out nationalities at random from the caller's sheet and put a tick in the box next to each nationality you call out.

When a student shouts 'bingo', ask them to say the countries on their card and the corresponding nationalities.

If the countries and nationalities are correct, the student wins the round. If not, continue the game.

As an alternative or extension, divide the students into groups of five and give each group 16 bingo cards and a copy of the caller's sheet.

Students then play the game amongst themselves with group members taking it in turns to be the bingo caller.

The game continues until all the bingo cards have been used.
